## Empowering Certifications

Every choice we make has an impact. Keep an eye out for these certifications to gain a deeper understanding of the environmental credentials of our products.

**Renewable** – made using renewable materials from the biosphere.

*Examples: Napkins, tablecovers and paper cups.*

**Compostable** – certified EN 13432 or ASTM D6400 as compostable in industrial facilities. Or, when labelled with OK compost HOME, on your compost heap at home.

*Examples: Bio tissue napkins, DuniSoft® napkins and paper cups.*

**Responsibly sourced** – part of a certification scheme, which assures responsible social and environmental practice in forestry or plantation.

*Examples: FSC®-certified forest fibres used for napkins, tablecovers and paper cups.*

**Resource efficient** – made from recycled or waste materials that show clear resource efficiency compared to standard alternatives.

**Recyclable** – means that the material from the product can be used to form new products. Recycling depends on the local infrastructure. Always consult a local waste handler.

A woman with long, curly brown hair is lighting a candle in a cozy, decorated room. She is wearing a white, textured sweater and a black and white polka-dot skirt. The room is filled with warm, ambient lighting from a string of lights and a lit candle. In the foreground, there is a wooden table with various festive decorations, including a lit red candle, a small wooden house, a bowl of rolled-up red and white napkins, and a vase of white lilies. The background features a dark wooden cabinet with glass doors, displaying various items.

# 2023 Trends

There is nothing as strongly connected to winter as soft and cosy living. It's a natural contrast that sets the mood for the season. We embrace warmth, togetherness and the happy feeling of creating festive moments that turn into traditions and last forever. There is beauty in homemade objects, recipes and crafts that become nostalgic memories over time.

Tradition is a charm, but maybe it's time for new ones to set the holiday scene. We see a switch as younger generations eagerly take on hosting festive gatherings during the winter holidays, introducing a breath of fresh air to the winter atmosphere. Our take on this? Adding a twist of sophistication to the winter romance feeling - as if modern minimalistic meets traditions in a festive meet and greet.

What we surround ourselves with is what influences our lives. In the magic of the changing seasons, we see what really matters and how nature is a true spark of life. Finding wellbeing and joy in the healing nature when inviting friends and family around the effervescent and flourishing festive tables during the magical holiday season. We keep ourselves grounded through candlelight dancing on the tables. Naturally.

Holidays are simply the largest in life. Moments to remember together, forever. Sitting around a beautiful table setting - talking, singing, toasting, cheering and wondering what we are getting. Something special, big or small, an act that says it all. It's beginning to look a lot like Christmas.

*"This year's collection is all about creating and cherish memorable moments together. And when it comes down to it - isn't that what life is about?"*

Jennie Johnson  
Head of design, Duni.

## CERTIFICATIONS THAT DRIVE SALES

The products in our collection carry a variety of environmental and quality certifications. Here you can find out what they mean.

The OK Compost INDUSTRIAL label and the Seedling label indicate that the product is suitable for industrial composting and meets the stringent requirements of the European standard EN 13432.

We now offer napkins with the OK compost HOME label. You can compost these at home. For instance, by putting them on the compost heap in your garden. This is because they compost at lower temperatures than used for industrial composting.

The Forest Stewardship Council® (FSC) certification ensures the product is made of wood from forests managed in an environmentally appropriate, socially beneficial and economically viable manner.

The Nordic Swan Ecolabel identifies the best products on the market from an environmental point of view. For instance, it confirms our stearin candles consist of at least 90% renewable materials and minimise soot emissions.

The RAL Quality Mark is awarded by the European Quality Association for Candles. It guarantees the candle burns cleanly, contains no hazardous materials, retains its shape and is safe and reliable.
